

*We take care of our planet*

One of our big challenges for the future of Starhotels is sustainability: we are in fact investing in this area in a targeted and strategic way to make all our hotels more efficient and sustainable in the medium term, this is definitely one of our priorities.

# #BESTARBEGREEN

3 mio.€ investments to reduce our electrical consumption by 30% by 2026

Staff training on environment friendly practices

“KM 0” Food suppliers  
Use of seasonal and local products

Use of recycled and FSC certified paper

Implementation of high-efficiency heating and cooling systems

Use of low-flow faucets to reduce water consumption

On our way to plastic free we have eliminated single-use plastic in almost all of our hotels

Environment friendly and certified cleaning products
